

## Streetlighting & Traffic

Street lighting and traffic poles are designed and manufactured to meet road authority or electricity utility specifications. Heights range from 4.5 – 15.0m depending on customer's requirements. Every product supplied by GM Poles is designed and certified by an Australian Registered Engineer.

### Standard types of poles include:

- Traffic pedestals
  - Traffic signal mast arms
  - Joint use poles for traffic signal and street lighting
  - Fixed base poles with outreaches for street lighting
  - Slip base (frangible) poles with outreaches for street lighting
- These poles are used on public roads and intersections.

### GM Poles also offers:

- Foundation Cages/Bolts
- Engineer certified foundation design
- Soil Testing
- Installation of footing
- Erection of pole
